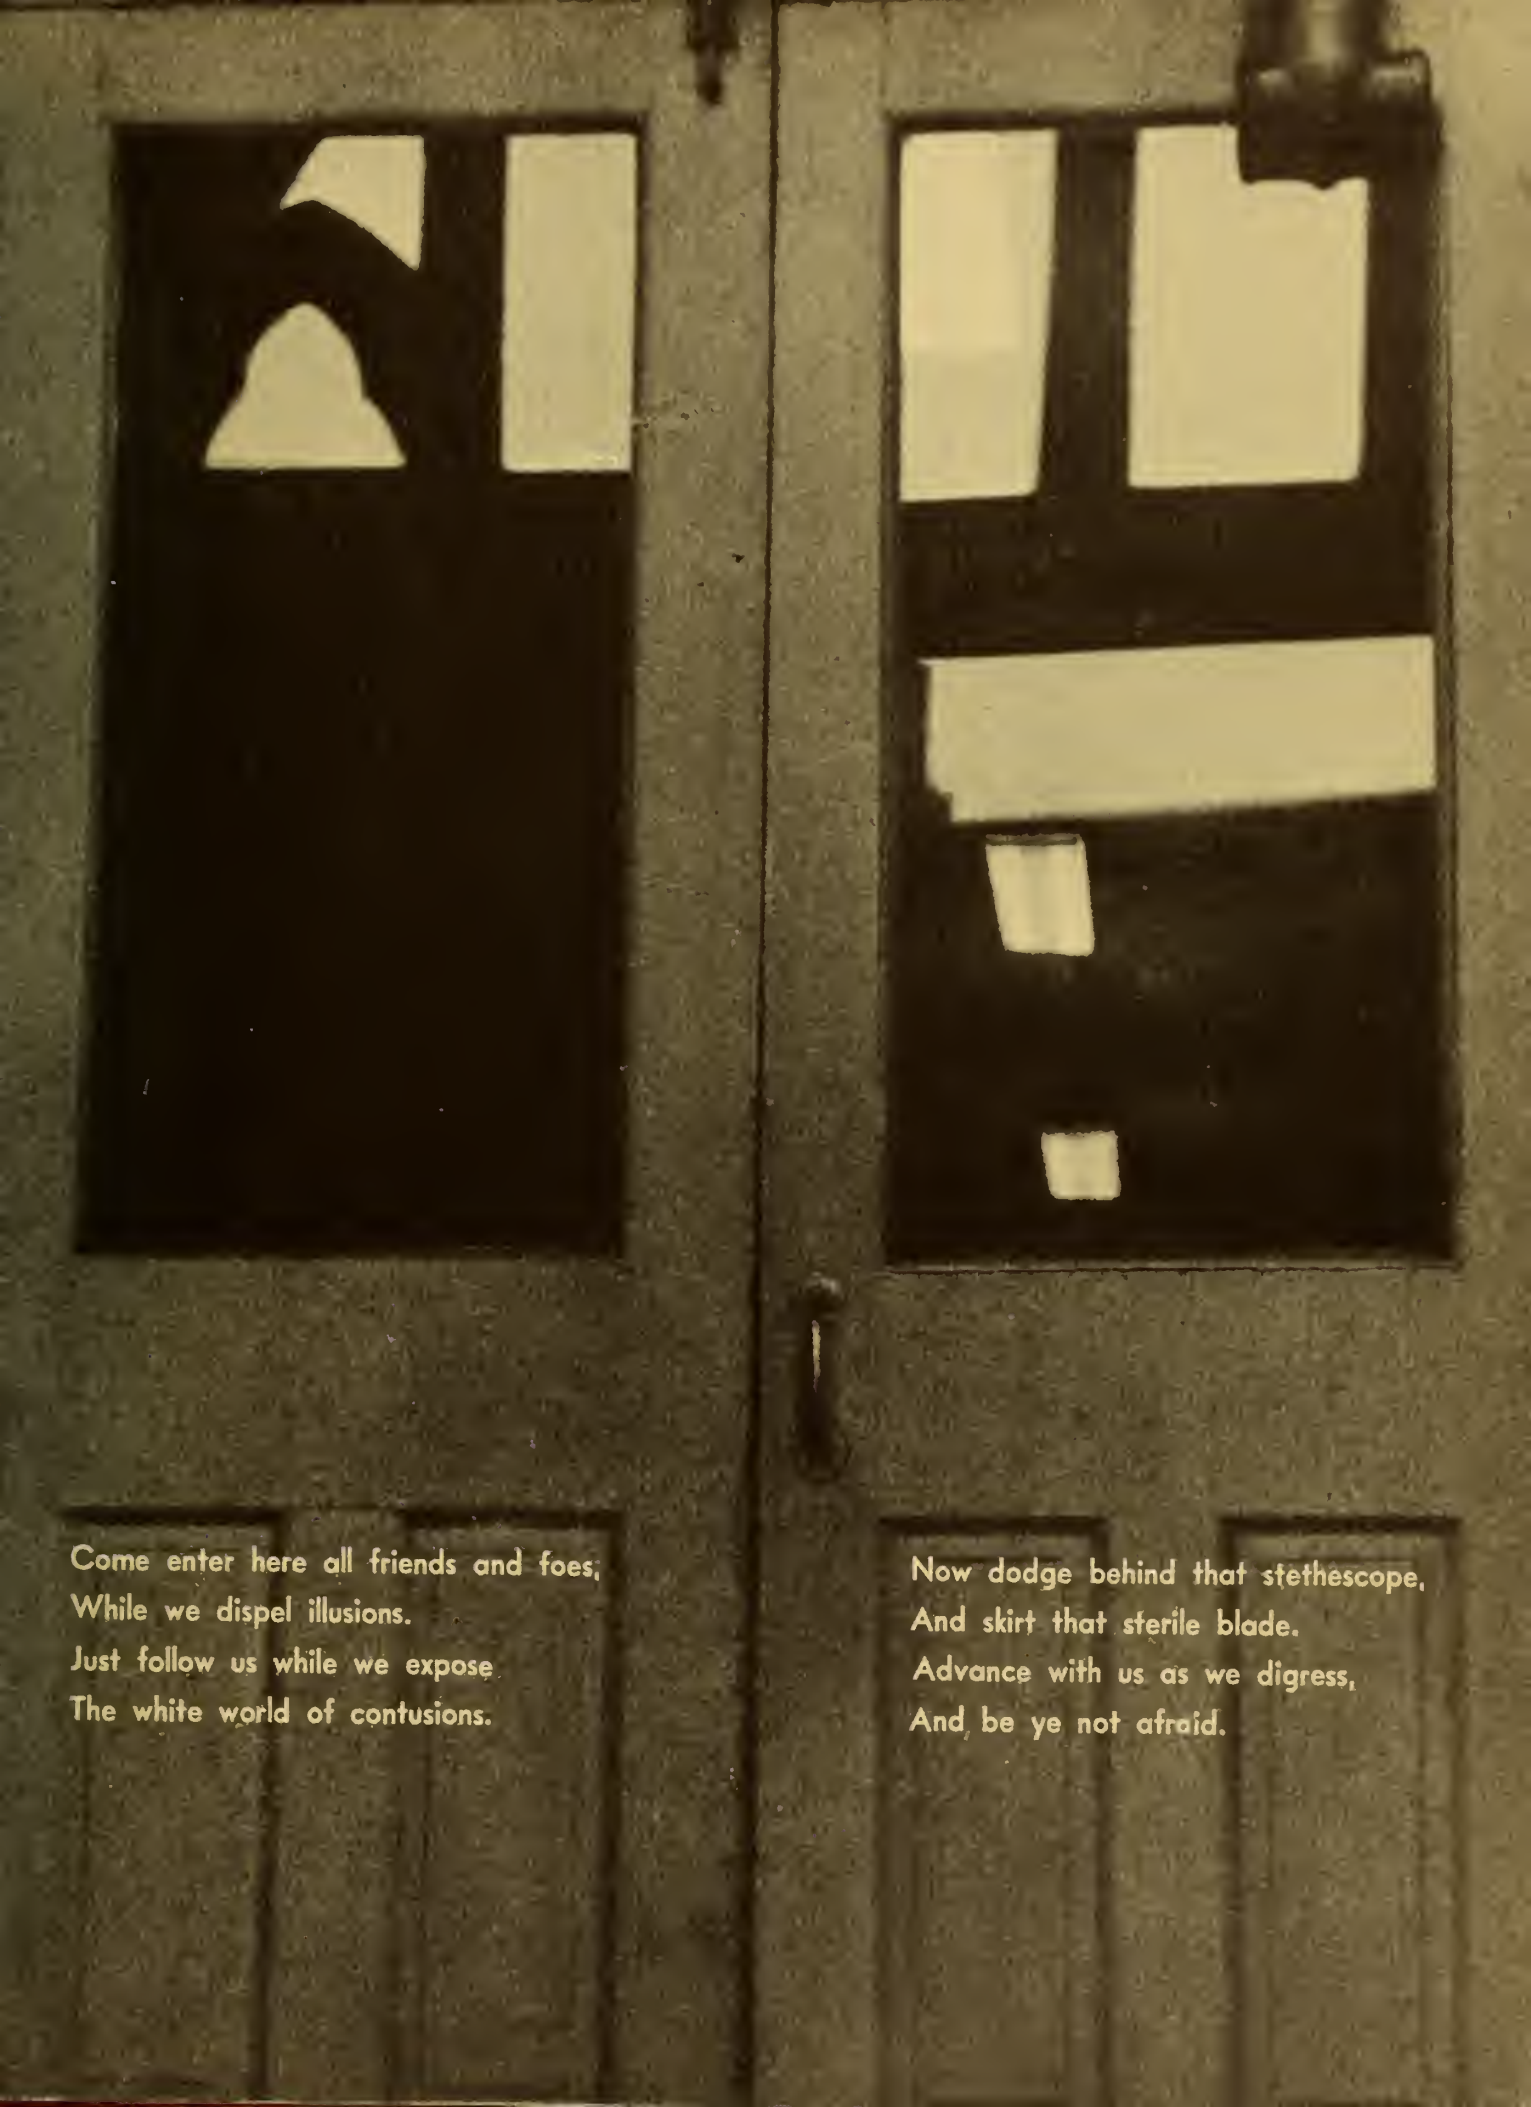
THE HAHNEMANN
MEDICAL COLLEGE

LIBRARY
HAHNEMANN MEDICAL COLLEGE
PHILADELPHIA, PENNSYLVANIA



Come enter here all friends and foes,
While we dispel illusions.
Just follow us while we expose
The white world of contusions.

Now dodge behind that stethescope,
And skirt that sterile blade.
Advance with us as we digress,
And be ye not afraid.

TO THE CLASS OF 1960

IT IS WITH HEARTFELT PRIDE AND SATISFACTION THAT I WELCOME YOU TO THE NOBLEST OF THE PROFESSIONS AND EXTEND TO EACH OF YOU MY WARM CONGRATULATIONS FOR YOUR ACHIEVEMENT.

TRULY, I ENVY YOU. I DO SO IN PART BECAUSE YOU ARE BETTER EQUIPPED TO MAKE SICK PEOPLE WELL THAN ANY GRADUATES IN MEDICINE HAVE EVER BEEN BEFORE — A CIRCUMSTANCE BOTH SATISFYING AND CHALLENGING. I ENVY YOU, TOO, BECAUSE YOU WILL BE PRIVILEGED TO PARTICIPATE IN WHAT I AM CONFIDENT WILL BE AN ERA OF MEDICAL DISCOVERY OF SUCH DIMENSIONS AS TO DWARF ANY THAT HAVE GONE BEFORE.

BUT WHILE YOU WILL BE ABLE TO CONFER UNPRECEDENTED PERSONAL BENEFITS ON YOUR PATIENTS, GREAT IMPERSONAL FORCES AFFECTING GENERATIONS YET TO BE BORN WILL CREATE PROBLEMS OF A QUITE DIFFERENT ORDER AND I HOPE YOU WILL REGARD THEM, AS MUST ALL PEOPLE OF GOOD WILL, AS YOUR CONCERN AND STRIVE IN THE BEST WAY YOU CAN FOR THEIR SOLUTION. I REFER TO POLITICAL AND SOCIAL AND MASS BEHAVIORAL MATTERS, FOR EXAMPLE, THE STIMULATED THREAT OF MAN'S EXTINCTION BY ATOMIC EXPLOSIONS, OVERPOPULATION, RACIAL INTEGRATION, AND THE WIDENING GULF BETWEEN WHAT IS KNOWN AND WHAT CAN BE UNDERSTOOD BY LARGE NUMBERS OF PEOPLE.

I HAVE FULL CONFIDENCE THAT YOU WILL BE GOOD DOCTORS TO THE PATIENTS WHO COME TO YOU. I URGE YOU TO ASSUME AN EQUAL MEASURE OF RESPONSIBILITY FOR THE WELFARE OF MAN IN THE AGGREGATE.

NOW, TO EACH OF YOU GOES MY EARNEST WISH FOR A LONG, HAPPY AND REWARDING LIFE, AND MY HOPE THAT YOU WILL REMAIN TO THE END LOYAL TO HAHNEMANN, WHICH DID SO MUCH TO MAKE YOU WHAT YOU ARE.

"The Battle"

One night as the ward lay quiet, I with stethoscope in ear,
Examined well a sleeping child to see what I could hear;
Amidst a bloody battlefield with flapping valves around,
I heard the age-old battle of the murmur and the sound.

"Shh-Boom, Shh-Boom! I've had enough," cried out the angry sound,
It matters not what phase I'm in, you always hang around;
"Boom-Shh, BoomShh," the murmur wheezed, you better go away,
It matters not how loud you get because I'm here to stay.

Let's call a temporary truce, I heard the sound implore,
Let's redefine the issues of what we're fighting for;
You want this heart, I want this heart, the patient wants it too,
The strongest pair will hold the fort—it looks as though you're through.

My strength is definition, you shapeless jelly fish,
You're nothing but a grumble, a whisper, and a hiss;
Although at times I have my faults—a split M_1, a clang, a bend,
I have much to my credit—a beginning, and an end.

For you arise from nowhere like a thief out of the night,
You follow at my footsteps, and you quiver in my light;
I set the pace, I'm clear and strong—sometimes with truth I ring,
You ill-defined vibration, you slither, and you *cling*.

***Mm-mm* the murmur buzzed with glee, you uninspired frump,**
You may be booming loud or sharp, but all you do is thump!
While I can be the whistling wind, or better still a lover's sigh,
The rumble of a distant train as it goes racing by.

I sometimes come before you—and oft times drown you out,
And all I do is murmur, while you are forced to shout;
Innocuous I may be, but I am deadly too,
Corrected or neglected I'm more powerful than you!

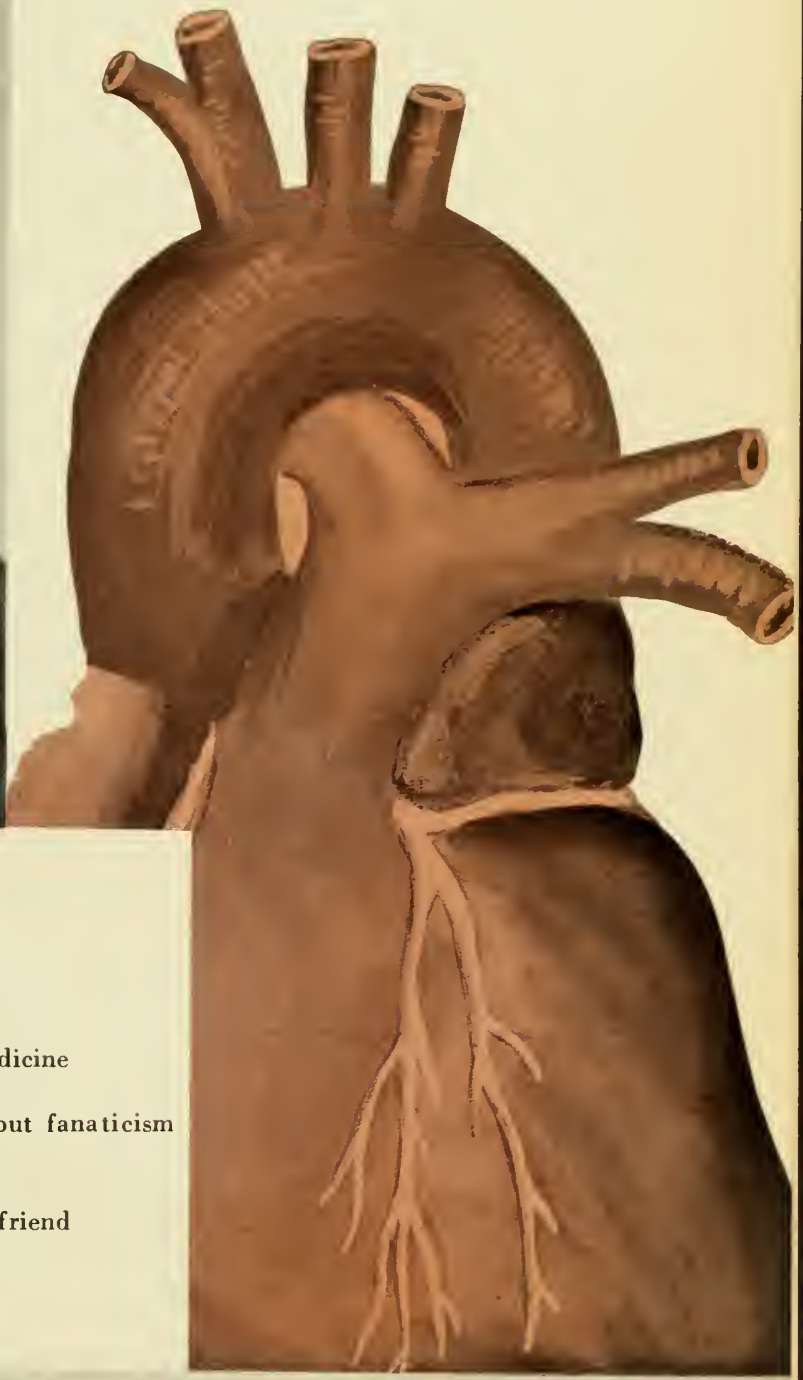
There was a moment of silence, I thought the heart was gone,
When in unison I heard them scream, "we both will carry on"!
Pump on you tough old muscle, the battle is resuming—
And then their cries were all drowned out beneath the wild Shh-Booming.

You won't believe my story, but maybe late one night,
You'll hear a vocal interlude when sound and murmur fight;
Until then I have living proof of their battle and their doom,
Just listen *hard* you'll hear them—"Shh-Boom, Shh-Boom, Shh-Boom."

B. Fiedler

A HEARTBEAT OF HAHNEMANN

GEORGE D. GECKELER
Clinical Professor of Medicine



Dedicated . . .

For the embodiment of principles too often forgotten in medicine
For teaching us the science while showing us the art
For determination without ruthlessness and dedication without fanaticism
For an iron will tempered by a soft voice
And a love of scholastics abetted by a keen mind
For being an excellent teacher, a fine physician and a good friend
It was a privilege to know you, Dr. Geckeler.

W. P. Callahan

C. K. Haun

Man is just a sum of his parts,
No better or worse than they;
Put together in fits and starts,
In a most miraculous way.

He's supported by bones, ambulated by joints
And fed by a muscle that pumps,

And like his fellows, he breathes through 2 bellows,
And thinks with two jelly-like bumps.

Anatomist Truex, can you explain
Where we should look for the soul?
For no matter how we cut it we find
The parts are much less than the whole.

I say we cut right through the aorta, and if she bleeds run like hell!

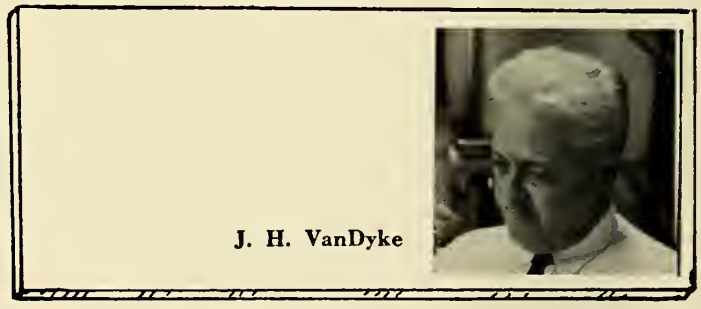
Where did you say the traffic circle was?

Working late over a hot body.

You have the softest tibia, dear.

A girl's best friend is her spinal column.

Into the "B" Box with Histology



The microscope . . .
Our secret symbol of success,
Our sacred cow, our togetherness;
But truthfully we must confess
It makes all things look like a mess.

"Lad, I've smoked for nigh onto 30 year . . . "

"But we know they cause mouse tumors."

Autopsy #1
Name: Class of Sixty
Time of Death: March, 1958

External Exam: External exam reveals 90-100 pieces of cyanotic flesh held together by a common ghoul. No icterus, but evidence of carotenemia. Pupils unequal. Whiplash marks over back. Cut-down-to-size scars on both extremities.

Internal Exam: Body opened in usual X-shaped incision. No organs found. The peritoneal cavity contained about 4000 cc of dirty white fluid. Partially digested bits of Anderson's synopsis seen floating around.

Brain: Skull opened. White matter of cortex totally replaced by colored kodachromes and small inflammatory cells.

Clinical cause of Death: Homocide.

Anatomical cause of Death:

(1) Acute adrenal insufficiency
(2) Congestive Heart Failure
(3) Ulcerative colitis
(4) Acute anxiety reaction

"Down with mice!"

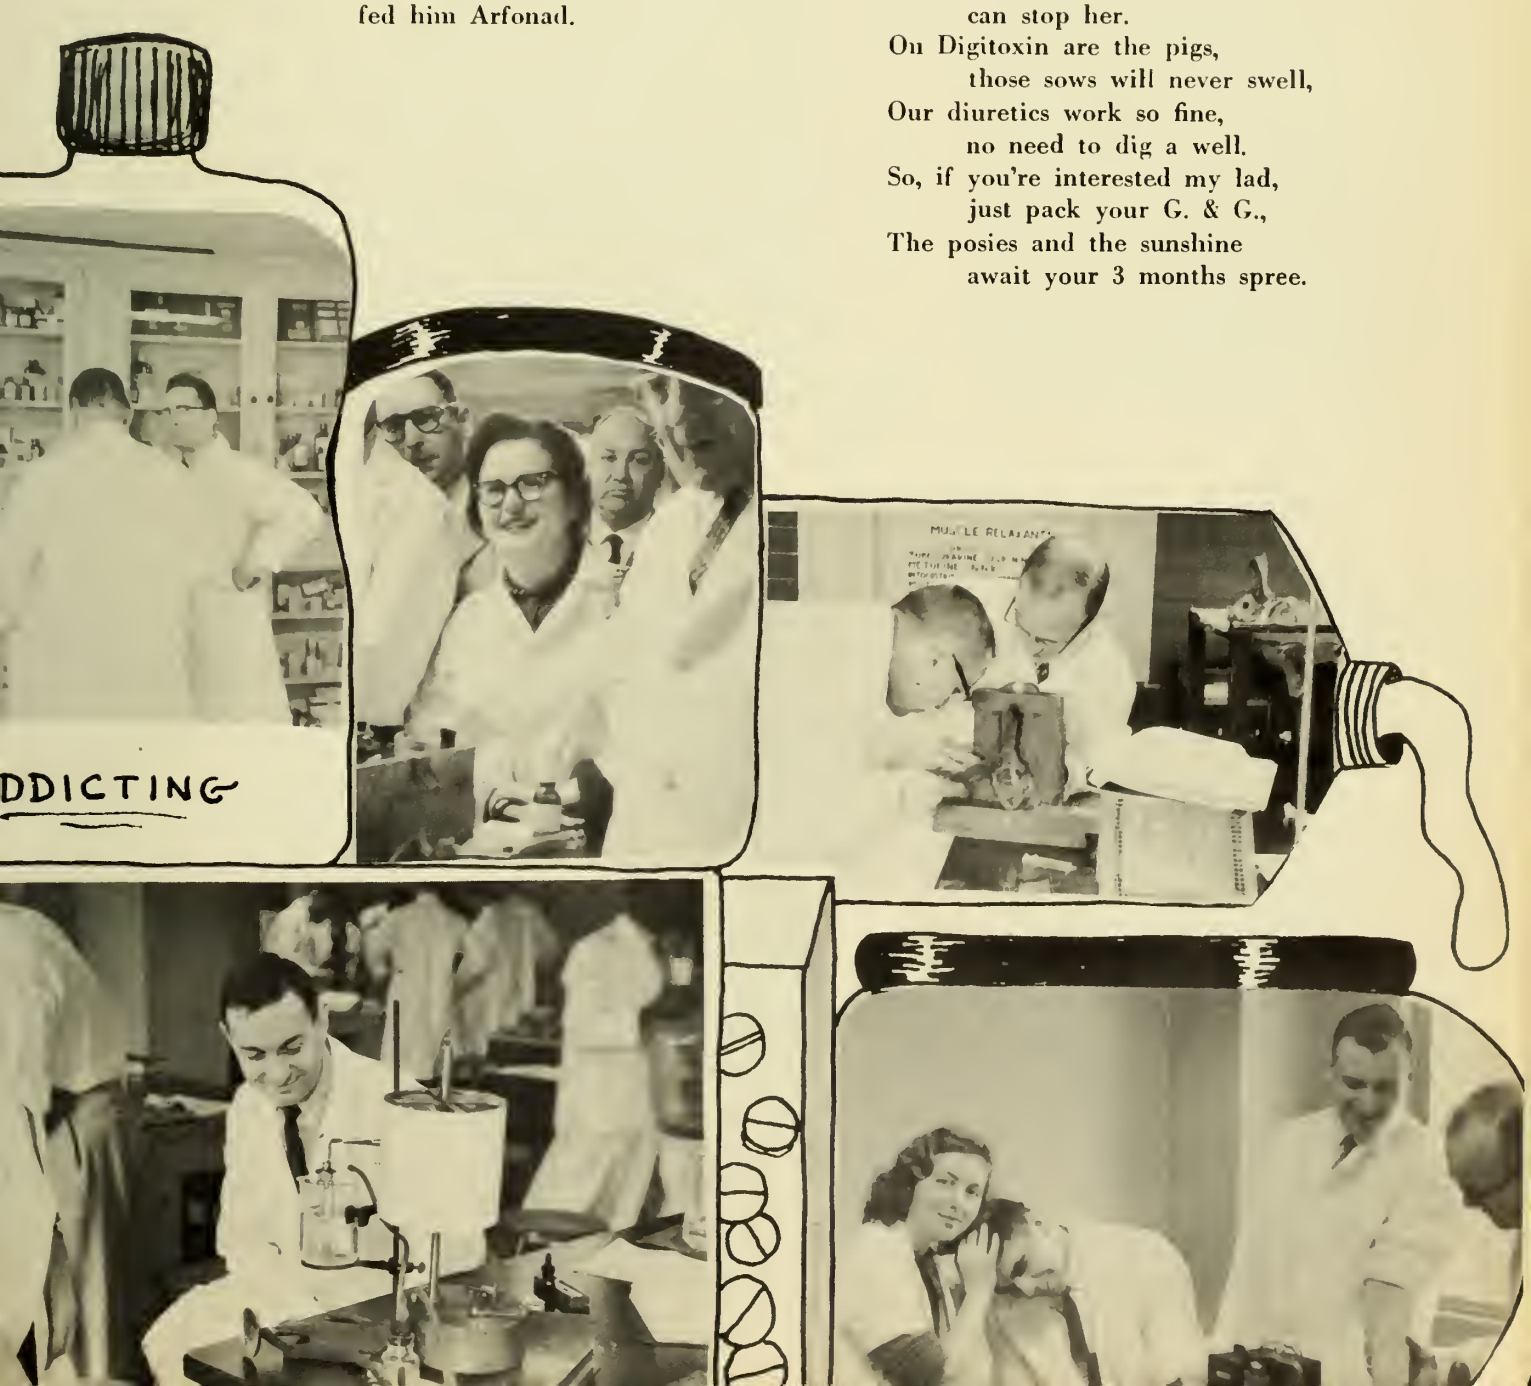
on the Pharm

The little students laugh and play,
their pupils quite constricted.
They romp around the poppy field,
so gay and unrestricted.
The virile bull is peaceful now,
and all the cows are glad.
Some budding farmacologist has
fed him Arfonad.

On morphine are the pussy cats,
and are those kitties hep,
The rats must eat Amphetamine,
just to keep in step.
That old goat behind the barn,
who used to be quite proper,
Had estrogen 4X a day and now no one
can stop her.
On Digitoxin are the pigs,
those sows will never swell,
Our diuretics work so fine,
no need to dig a well.
So, if you're interested my lad,
just pack your G. & G.,
The posies and the sunshine
await your 3 months spree.



Forward to the clinic . . . Real patients at last.

How am I, Doc? . . .

Oh, well, books are a man's best friend anyway.

I ain't telling you nothing, sonny . . .

W. C. Hunsicker, Urology

We are privileged indeed to have entered the age, where the surgeon's a gentleman, scholar and sage.
Away with the Allis, down with Kellys, begone foul retractors, destroy all the Smellies.
But give us instead a comfortable seat, to discuss innervation of gangrenous feet;
With theories for forceps and ideas for knives, our sitting surgeons go forth to save lives;
But sometimes we feel—as if they would care—it's a mighty long arm that can cut from a chair.

ALL'S WELL THAT ENDS

a farce in three acts

Characters: Dr. J. Howard . . . *Surgical chief*
Staff men
Students *in order of importance*
Residents
Kind old lady

The entire play takes place in the surgical amphitheater. It is clearly a remnant of the Spanish Inquisition. Torture periods are mercifully limited to two hours. Seats accommodate only the tip of the coccyx if it is pointing posteriorly. Several cracks in the wall give the impression of great age and strength.

Act I, Scene I: Grand Rounds *(Large Circles)*
Time 2:00 P.M.

Dr. Howard: "Our interesting subject today is acute cholecystitis. *(He pauses and looks to far corner of amphitheater where Student M. Bush is sitting).* Can you heere me, Mister Bush? *(Voice heard faintly from distance):* "No, thank you, Dr. Howard, I never drink beer before breakfast." *(The good doctor shrugs helplessly, then looks at the list in front of him. His eyes light up as he spots a new victim).* "Mr. DeMarco, what nerve innervates the gall bladder?"

Mr. DeMarco: *(Ignoring DeMatteo and foolishly going to Christopher. In haste he gets wrong section).* "I believe it's just called the detrussor nerve, sir." *(There is frantic hissing from the galley).*

Dr. Howard: *(gently)* "You're not quite right son. Would you look that up and report on it next week, Mr. DeRusso?"

Mr. DeRusso *(scowling angrily at grandstanders):* "No, *(Pause)* sir."

Dr. Howard *(to left hand man and #1 resident):* "What do I do now, Ed?"

Ed *(remaining impassive):* "Bring in the first patient." *(Doors open and kindly old lady is brought in. She looks around at all the bright, eager, intelligent young faces, obviously impressed).* Dr. Howard *(bursting with U. of P. charm):* "How do you feel since your operation?"

Kindly old lady: "Lousy! And who are all these dumb looking kids staring at me?"

Dr. Pearce! *(obviously distressed at this unorthodox display).* "Now, now mother, this nice man saved your life by taking out your gall bladder."
(Kindly old lady stamping out of room in disgust). "I ain't your mother . . . and I ain't had no gall bladder in years."

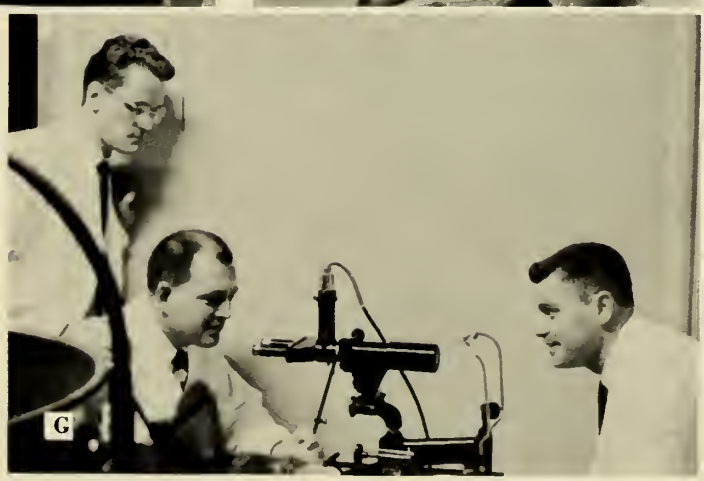
Dr. Grotzinger *(dark-haired boy jumping to feet):* "This case was blundered! I alone *(modestly)* suspected a retro-hepatic appendix . . . It was the only gall bladder I ever saw with an impacted fecolith!"

There is a great deal of commotion. Residents are seen hauling kind old lady and Dr. Grotzinger away in burlap bags. House lights dim. Shots are heard in the distance.

the Knots of Surgery

Snip Diagnosis

Pictured are clues leading to common conditions encountered in the everyday practice of medicine. You should be able to identify at least one out of the eight. Those getting over 4 correct answers will be awarded the honeymoon suite at Eastern Psychiatric.



ANSWERS

(A) Acute alcoholism (getting plastered).
(B) Simple laceration (pierced).
(C) Elephantiasis (Sack-ulated skin).
(D) Decongestive Failure (Prostatism).
(E) Graves Disease (for teachers not digging medical student).
(F) Chronic cystic mastitis (note double-breasted coat).
(G) Manic depressive (off on a tangent).
(H) Ischiopagus.

SONG OF THE TRICHOMONAS

Thru the speculum — what do you see?
A vagina, a cervix, an os and me.
From my warm little spot on this velvety place,
I'm a smug little bug — I'm a pelvic disgrace.

Menorrhagia, metrorrhagia keep pounding at my head.
That polyp up on cervix erode would like to see me dead.
But worst of all, some months ago, a fetus passing by,
Squashed my vacuole to bits, and kicked me in the eye.

They try to destroy me, for I know too much,
I can tell a man's worth just by his touch,
They squirt me with gentian and floraquin too,
If they knew I mutated — they'd be in a stew!

I really am a kindly soul, I don't want fame or riches,
My only pleasure out of life is giving ladies itches,
So great and mighty OB men, please don't be neurotic,
This place is big enough for two, so let's be symbiotic.

Inside Gynecology

GYN. CASE CONFERENCE #1

A freshman medical student came to Gyn. Clinic because of sterility. A D & C revealed sickretory endometrium and retained products of deception. Dx was secondary ammenorrhea of the mind. Endocrine therapy was initiated. Vicarious mesmerization was induced and the egg-head was finally fertilized.

Thank goodness for gynecologists!

STUDENT INSTITUTE

Dear Sir:

Regarding your inquiry concerning our student government here at Hahnemann, I have gathered the following information. The Student Institute is an organization established over twenty-five years ago for the purpose of promoting the social, academic and administrative welfare and activities of the undergraduate. Being composed of two appointed faculty members and a president and two representatives elected from each undergraduate class, the Institute stands as an instrument of student opinion. Problems such as student's family health plans and Freshmen

ALPHA OMEGA ALPHA
NATIONAL HONOR SOCIETY

December 12, 1959

Dear Doctor:

The members of Zeta Chapter, Alpha Omega Alpha, congratulate you on your acceptance into our Organization. A.O.A. membership is a highly coveted honor signifying scholastic excellence, leadership ability and outstanding character, integrity and dedication to your profession.

You will be initiated at a lectureship dinner. Details concerning this will be announced at a later date.

STUDENT INSTITUTE—*Front Row:* C. Henry, A. Crews, J. Goedecke, A. Cattano, Dr. Wilson. *Back Row:* Dr. Perlmutter, S. Paskin, S. McCurdy, T. Zuck.

14th ANNUAL UNDERGRADUATE RESEARCH DAY

Hahnemann Medical College • Friday March 4, 1960

Original Student Research Papers

1. A New All-Purpose Self Retaining Retractar. C. T. Yaringtan, Jr.
2. A Study of 100 Cases af Congenital Aortic Stenasis. Fronklin J. DeRusso ond Mark May
3. Physialogic and Metobalic Changes During Profaund Hypathermio Employing Autagenaus Lung. Carlene Samuels
4. Studies af Polymers as Corcinagenic Agents. David B. Lucchina
5. Salt Liberalization in Congestive Failure. Donald Snyder
6. Selection and Isalotian of Auxotraphic Yeast Mutants with the Aid af Membrane Filters, Antibiatics and other Techniques. Normal W. Peters, Jr.
7. Mitotic Activity in the Developing Humon Heort. Steven J. Phillips
8. Supercoaling and Resuscitatian of Laboratary Animals. Warren Becker
9. Fetol Hemaglabin Levels During the First Year of Life. Richard J. Brawn
10. Preparatian of a Gald Chelate Using $AuCl_3$ and Na_2EDTA. Chester S. McLaughlin, Jr.
11. The Effect af Increasing Portal Vein Free Fatty Acid Cancentratians an Liver Uptake. W. Siefert and S. Paskin
12. Improvement in Technique Endarterectomy. Stanley Spitzer
13. Enzyme Study in Early Myacardiol Infarction with Special Reference ta Succinic Dehydrogenose. Clifford E. Schatt, Jr.
14. A New Thiazide 3-Benzylthiamethyl Derivative af Chlorathiazide. Leanard Frank
15. Alterations in Mouse Ascites Cancer by Ribonuclease plus X-Ray Therapy. Stephen Padolsky
16. Selective Caranary Arteriography and Visualizatian in the Dag and and the Use of Metallic Micraspheres in the Inductian of Artificial Coronary Occlusion. James Camptan and Kenneth Miller

Plus 14 papers by title

Plus guest speaker—Col. George M. Knauf, Hahnemann 1934, Staff Surgeon, Air Farce Missile Test Center, Cape Canaveral, Florida. The Medical Aspects of Missile Operatians.

UNDERGRADUATE RESEARCH SOCIETY—*Front Row, left to right:* J. Solomon, C. Czarnecki, C. Samuels, B. Fomalont, S. Phillips, Chairman; B. Figueroa, Secretary; H. Berk, J. Sandberg, J. Kamdar. *Second Row:* L. Fortuna, C. Schott, W. Barry, G. Seitter, B. Friedberg, S. Spitzer, P. Rosen, S. Paskin, A. Williams, E. Andrews. *Third Row:* A. Gionti, E. Hoffman, G. Glantz, D. Snyder, A. Holzworth, J. Cohen, T. Oslick, W. Johnson, J. Kouten. *Fourth Row:* M. Derezin, J. Compton, K. Miller, H. Cohen, H. Allison, H. Simons, B. Sklar, W. McCurley, L. Frank, R. Carp.

Undergraduate Research Society

In its 14th year and still growing, the Undergraduate Research Society promotes student activity in the field of medical research. In the last summer about 25% of the student body actively engaged in research activity. The Society yearly organizes an Undergraduate Research Day in the spring at which original student papers are presented, followed by a guest speaker. An attempt is made to keep the student body informed of the research opportunities available and to encourage first hand experience in avenues of exploration in basic science and clinical medicine.

Alexis Carrell Society

ALEXIS CARRELL SOCIETY—*First Row, left to right:* C. Czarnecki, A. O'Connor, J. Norante, F. Pugliese, L. Fortuna, F. Colizzo. *Second Row:* W. Barry, B. McAdams, J. O'Malley, W. Strong, S. Puma, P. Keblish.

These two societies are dedicated to furthering Christian beliefs and ideals in the medical student and future physician. This is brought about by emphasis on tolerance and understanding in both professional and non-professional spheres. Basic to this whole philosophy is the pursuit of honesty, both spiritual and intellectual.

Christian Medical Society

CHRISTIAN MEDICAL SOCIETY—*Front Row, left to right:* E. Bossard, H. Culton, (President); D. Cassel, V. Kratz, S. Brown. *Second Row:* R. Schuster, D. Davis, L. Hammerberg, J. Rutt, R. Jones.

AESCULAPIAN SOCIETY—*First Row, left to right:* P. Ironside, R. Leber, D. Fogg, (Vice President); D. Coulson, (President); W. Young, (Secretary-Treasurer); L. Robbins. *Second Row:* W. Barry, W. Hammaker, P. Pellegrino, C. Buckley, J. Carter, A. Cattano, W. Figueroa. *Third Row:* F. Cressman, C. Diez, F. James, R. Witzig, K. Miller, A. O'Connor.

WOMEN'S MEDICAL SOCIETY—*Front Row, left to right:* C. Samuels, E. Bossard, B. Fiedler. *Second Row:* J. Sandberg, F. Camitta, B. Belkin, J. Katz.

FRATERNIZING...

Alpha Kappa Kappa Fraternity

BETA PHI CHAPTER
HAHNEMANN MEDICAL COLLEGE

141 N. 16TH STREET
PHILADELPHIA 2, PENNSYLVANIA

ALPHA KAPPA KAPPA—*First Row, left to right:* N. Pitha, T. Zuck, F. DiMauro, S. Podolsky, F. Cressman, W. Barry, D. Ornaf, E. Guerriero, V. DiStefano. *Second Row:* H. Edson, J. Meyers, T. Clair, B. Stedman, C. Schneider, C. Maier, A. Williams, H. Tatem, P. Toot, S. McCurdy, A. Petti. *Third Row:* J. Cummings, J. Padona, M. Klein, P. Jermond, J. Coppola, W. Christ, H. Mullin, E. Eastland, I. Toland, R. Hansen, D. Brendlinger.

AKK was founded in 1888 at Dartmouth Medical College. Beta Phi Chapter was formed at Hahnemann in May 1948. They recently added a new chapter house on 16th Street. The group, the youngest at Hahnemann is also one of the most enthusiastic—as evidenced by the gala spirits frequently surrounding the house. AKK boasts of a well-rounded social program. There are monthly dinner meetings and frequent gatherings. Not to neglect the scholastic side of things, President Fred Cressman, points with pride to a budding library and an active scholastic aid program. V. Croft, only man to hold 5 jobs at once and still pass, typifies the indomitable spirit of the fraternity.

Phi Lambda Kappa Fraternity

Alpha Beta Chapter

Hahnemann Medical College

PHI LAMBDA KAPPA—*Front Row, left to right:* B. Belkin, J. Katz, N. Schatz, P. Pavitt, A. Gibstein (President), J. Stein (Treasurer), M. Rubinstein, B. Fiedler Edelstein, F. Camitta. *Second Row:* A. Newbert, A. Haber, M. Woldoff, E. Hoffman, S. Podolsky, J. Horowitz, D. Scheid, H. Berk, A. Patchefsky, B. Glaser. *Third Row:* E. Andrews, J. Solomon, R. Miller, J. Cohen, R. Fomalont, S. Paskin, A. Roth, H. Libshitz, D. Snyder, G. Lassiter (National Representative). *Fourth Row:* R. Petersohn, M. Katz, S. Katz, C. Rojer, B. Portner, J. Gotlieb, J. Hyman, W. Latham, R. Gross, F. Priser, P. Gutlohn, W. Becker.

Phi Lambda Kappa Medical Fraternity was founded in Philadelphia in 1909. The Alpha Beta Chapter at Hahnemann was organized in 1926 and is one of 16 chapters.

The purposes of this fraternity are to maintain among medical students and physicians, regardless of race, creed or color, a spirit of fraternalism, of mutual aid and moral support and to advance the concepts of the medical sciences.

At the 1960 National Convention in Boston, this chapter was voted the best in the nation. Pictured is Mark May with Best Chapter trophy. They also braved storms of protest and prominently displayed bravery by breaking the sex barrier and admitting female members.

Well known seniors include Robert Fomalont, whose heart (rumor has it) only beats twice a day; "coach" Gutlohn, who can be identified by a large black bag carrying drug samples, and Glantz, the only reported case of cerebral edema never to have lost consciousness.

PHI BETA PI FRATERNITY

BETA KAPPA CHAPTER
1511 SUMMER STREET
PHILADELPHIA 2, PA.

PHI BETA PI—*Front Row, left to right:* T. Terura, J. Lillie, W. Spangler, R. Johnson, S. Puma, J. Saba. *Second Row:* J. Stoner, G. Photias, H. Allison, A. Crews, N. Peters, F. Nagy. *Third Row:* E. Lam, S. Alley, J. Schade, C. Lam, G. Arnold, L. Laska.

"Brotherhood for all" typifies the atmosphere of Phi Beta Pi fraternity. From their recently acquired Chapter house on Summer Street emanates fraternal understanding. Lead by Dave Lucchino, their genial president, Phi Beta Pi is swiftly becoming one of the most important fraternities at Hahnemann. Beta Kappa chapter was founded here in 1947 as an outgrowth of Pi Epsilon Rho. Originality, vigor and freshness of outlook mark their approach to scholastic and social undertakings. With A. Crews as a member, how could they miss?

PHI DELTA EPSILON
BETA ZETA CHAPTER
HAHNEMANN MEDICAL COLLEGE

PHI DELTA EPSILON—*First Row, left to right:* Alan Kellerman, Stanley Spitzer, Morton Richmond, Herbert Cohen, Bernard Friedberg, Barry Loigman. *Second Row:* Arnold Stein, Mark Kramer, Mark Ruderman, Howard Simons, Herbert Schick, David Rosen, Ivan Butler. *Third Row:* Saul Weinstein, Marvin Derizen, Burton Fine, Meyer Gordon, John Ravin, Ted Oslick, Paul Gatterman.

Phi Delta Epsilon, founded at Cornell University Medical School in 1904, is pledged to the three ideals of loyalty, scholarship and fraternity. At the present time, 47 undergraduate chapters in leading medical colleges and 35 graduate clubs in major cities uphold the Phi D E triad. Beta Zeta Chapter at Hahnemann, is over 40 years old, having been founded in 1919, and is proud of its hundreds of alumni members who have furthered the interests of medicine, and of Hahnemann.

Every year Phi Delta Epsilon brings a nationally known medical figure to Hahnemann to deliver the Aaron Brown Memorial Lectureship to the entire student body and faculty staff. The Initiation Ball and the Five Chapters Dance are annually supported by Beta Zeta, as well as the three other undergraduate and the graduate chapters in the city. In addition to these two formal dances, the chapter also sponsors numerous informal get togethers and parties throughout the school year.

Minutia Masters, Art Goldberg, and Mike Blumberg are typical of the zeal for knowledge that permeates the fraternity.

The Phi Chi Medical Fraternity

PHI CHI FRATERNITY — *1st Row, left to right:* F. Zimpher, J. Loveless, L. Fortuna, F. Pugliese, F. Colizzo, J. Shane, B. McAdams, A. Kallinak, J. Norante. *2nd Row:* R. Woolslayer, S. Rzepela, J. Abda, W. Moore, D. Nase, D. Weiss, D. Horchos, A. Cattano, J. Reid, A. D'Anca, C. Diez, F. James, C. Henry, R. Caputo, L. Robbins, W. Hamaker, W. Barry. *3rd Row:* C. Czarnecki, L. Skweir, R. Leber, P. Ironsides.

The Phi Chi medical fraternity is the largest medical fraternity at Hahnemann. Since its union with Phi Alpha Gamma in 1949, it has become a leading force in school life. Its Alumni Association numbers the Dean and 16 professors. Each year two awards are presented: one the E. J. Carey memorial award in Anatomy, and the other to the highest standing Phi Chi senior.

The annual social calendar includes the Founder's Day banquet, the annual Christmas party for underprivileged children, the fall rushing parties, and many, many, many other social events. Fraternity president is William Toth.

We Apologize

When this book is published
It may create a storm.
We'll be told about the copy
And our many flaws in form.

So let us take a minute
And explain our naughty baby,
And when you hear the story
You'll forgive us, maybe.

For one absent senior picture
We can only tell you this
Cameras can't take phantoms
Or hits won't make a miss.

The IFC, a noble group,
May be missed a lot,
The photographer was present
The IFC was not.

Please forgive us Medicine,
For the things we left unsaid.
If we gave you your due praise,
It *would* go to your head.

And Surgery, your format's new
You wield a mighty knife,
But remember, now and then,
You're not a way of life.

For all the people, we left out
A slight was not intended.
Our space was not quite adequate,
So please don't feel offended.

For senior personalities
Which we did not discuss
Remember them just as they were
And don't rely on us.

If you think this book lacks depth
You're absolutely right
After four such heavy years
We tried to keep it light.

We've merely given you the key
To open what is yours alone.
So now and then you may recall
A set of memories of your own.

The HAHNEMANN MEDICAL COLLEGE and HOSPITAL of PHILADELPHIA

extends sincere congratulations to all the members of the 113th graduating class of 1960. We wish each of you every success in your years of professional service to mankind, and trust that you will recall with fond memories your student days as "one of the Hahnemann Family."

We know too that you will always be proud of your Alma Mater for her progressive role in the fully accredited training of twentieth century physicians, teachers, nurses, medical technicians and research investigators.*

We trust you will continue to be an "active member" of the Hahnemann Family through your ever loyal interest, service, and financial support.

**Catalogs and additional information pertaining to the curriculum in each of these fields may be obtained from*

20 YEARS added to average life span in last half century

In 1910 the average life expectancy in America was 50 years. Today it has jumped to 70.

Progress in the medical sciences has played a major role in adding 20 years of useful life.

In the same period, research conducted at Merck Sharp & Dohme has led to the introduction of scores of new products. Here are some of the major contributions made by the company during these years of medical progress:

1934	**Vitamin C,** essential to the connective tissue of the body, is isolated.
1936	**Vitamin B_1,** useful in treating a variety of nerve and heart disorders, is synthesized.
1938-43	New **sulfa** drugs to combat bacterial infection are synthesized and introduced.
1944	**Cortisone,** to combat pain and symptoms of arthritis, is first synthesized.
1948	**Vitamin B_{12},** used to combat pernicious anemia, is isolated.
1951	**'Benemid'** (Probenecid), for the treatment of gout, is first synthesized.
1957	**'Diuril'** (Chlorothiazide), to combat high blood pressure and congestive heart failure, is synthesized and offered commercially.
1958	**'Decadron'** (Dexamethasone), the most potent anti-inflammatory steroid, is developed and first offered commercially.
1959	**'Tetravax'** is developed to immunize infants and children against four deadly childhood diseases—polio, whooping cough, tetanus and diphtheria.

THE INTERNAL CLOCK

The ability to judge intervals of time is a basic mental function. In order to learn how drugs affect this "internal clock," SK&F scientists use a test in which a monkey must hit a lever after an interval of 20 seconds to obtain food.

When he is under the influence of certain drugs, "time flies" and he misses the pay-off period by hitting the lever too late. Other drugs make "time drag" and he misses the pay-off period by hitting the lever too soon.

Because one of the characteristics of many mental disorders is a distortion of the time sense, observing how drugs affect this primary psychological process may reveal valuable information that will help SK&F scientists in discovering effective treatments for mental illness.

NABCON

"ESSENCE OF BREWER'S YEAST"

NABCON concentrates in one tasty teaspoonful all the active components of 35 brewer's yeast tablets.

Now you can give your patients the full range of B complex *natural* vitamins as presented by brewer's yeast . . .

Leading authorities always have recognized the value of brewer's yeast, but the necessity of giving a patient 30 to 40 large tablets a day has limited the usefulness of this valuable vitamin source. Now—*one* teaspoonful of NABCON a day will give the same results—results often significantly superior to synthetic B complex mixture.

Whether the patient is 3 years or 80 years old, for gratifying clinical response and willing patient co-operation, prescribe NABCON in 4 oz. bottles—a month's supply.

Have you tasted **NABCON?** *It's really pleasant. Send for samples.*

Come enter here all friends and foes,
While we dispel illusions.
Just follow us while we expose
The white world of contusions.

Now dodge behind that stethescope,
And skirt that sterile blade.
Advance with us as we digress,
And be ye not afraid.
